## Department of Computer Science & Engineering ANNUAL REPORT ON ADD ON COURSES (2022-23)

The department of Computer Science & Engineering is pleased to announce that we had provided the following courses in keeping a view of bridging the gap between academics study and industrial requirement for the future technocrats where maximum students were enrolled. The details are as follows.

| Sl No | Name of the Add-on Course          | course co-coordinator          | No of students enrolled | No of students successfully completed | Date of commencement | Date of completion |
|-------|------------------------------------|--------------------------------|-------------------------|---------------------------------------|----------------------|--------------------|
| 1     | Data Analytics Using R Programming | Dr. Subhendu kumar Patra       | 68                      | 66                                    | 18.10.2022           | 23.12.2022         |
| 2     | Ethical Hacking                    | Asst. Prof. Suchin kumar Patra | 52                      | 49                                    | 18.10.2022           | 23.12.2022         |

The aforementioned courses were successfully completed and the various outcomes have been achieved as follows. These courses will be highly essential for becoming a fully skilled engineer.

### **Course Outcomes of Data Analytics Using R Programming**

- CO-1: Build new packages for sharing and reusability.
- CO-2: Develop an R script and execute it.
- CO-3: Install, load and deploy the required packages.
- CO-4: Extract data from different sources using API and use it for data analysis.
- CO-5: Visualize and summarize the data.
- CO-6: Design application with database connectivity for data analysis.

### **Course Outcomes of Ethical Hacking**

- CO-1: To gain knowledge about Ethical hacking and penetration is testing.
- CO-2: To learn about various types of attacks, attackers and security threats and vulnerabilities present in the computer system.
- CO-3: To examine how social engineering can be done by attacker to gain access of useful & sensitive information about the confidential data.
- CO-4: To learn about cryptography, and basics of web application attacks.
- CO-5: To gain knowledge of the tools, techniques and ethical issues likely to face the domain of ethical hacking and ethical responsibilities.
- CO-6: Ethical issues likely to face the domain of ethical hacking and ethical responsibilities.

## Department of Basic Science & Humanities ANNUAL REPORT ON ADD ON COURSES (2022-23)

Department of Basic Science & Humanities is pleased to announce that we had provided the following courses in keeping a view of bridging the gap between academics study and industrial requirement for the future technocrats where maximum students were enrolled. The details are as follows.

| Sl No | Name of the Add-on Course       | course co-coordinator | No of students enrolled | No of students successfully completed | Date of commencement | Date of completion |
|-------|---------------------------------|-----------------------|-------------------------|---------------------------------------|----------------------|--------------------|
| 1     | Learning Conversational English | Dr. Sandhya Mishra    | 138                     | 128                                   | 18.10.2022           | 17.12.2022         |

The aforementioned courses were successfully completed and the various outcomes have been achieved as follows. These courses will be highly essential for becoming a fully skilled engineer

### Course Outcomes of Engineering Statistics and Data analysis:

- C01. By the end of this course, participants will have gained the necessary skills and confidence to communicate effectively in spoken English, both in personal and professional settings.
- C02. Learners will expand their vocabulary and acquire a wide range of commonly used words and phrases, enabling them to express themselves more effectively in conversations.
- C03. Learners will gain a solid understanding of English grammar and sentence structure, enabling them to construct grammatically correct sentences and convey their ideas accurately.
- C04. Learners will improve their pronunciation and intonation, enhancing their ability to be understood by native English speakers and communicate more clearly.
- C05. The students are better at remembering things, think more critically, think outside of one's perspective, and greater ability to focus.
- C06. It has been shown that those who are able to speak more than one language think differently.

The aforementioned courses were successfully completed and the various outcomes have been achieved as follows. These courses will be highly essential for becoming a fully skilled engineer.

### **Course Outcomes of Randomized Methods in Complexity:**

- CO-1: formalizing computation in terms of algorithms and circuits.
- CO-2: Understand, explain, and apply core techniques for constructing algorithms
- CO-3: Design novel algorithms to solve specific problems
- CO-4: Understand and apply core concepts from computational complexity theory
- CO-5: Appreciate modern topics in algorithmic theory
- CO-6: Explain complexity & algorithmic topics.

### **Course Outcomes of Deep Learning:**

- CO-1: Students will be able to understand knowledge of the fundamentals of neural networks and modern deep learning.

## DEPARTMENT OF CIVIL ENGINEERING ANNUAL REPORT ON ADD ON COURSE: (2022-23)

The department of civil engineering is pleased to announce that we had provided the following courses in keeping a view a bridging the gap between academic study and industrial requirement for the future technocrats where maximum students were enrolled. The details are follows:

| SL. NO. | Name of the Add-on course                         | Course coordinator                                   | No. of students enrolled | No. of student successfully completed | Date of commencement | Date of completion |
|---------|---|--|--------------------------|---------------------------------------|----------------------|--------------------|
| 1       | River Behaviour Management & Training             | Asst. Prof. Ankita Jena & Prof Dr. Harish Chand Giri | 61                       | 58                                    | 21 Oct 2022          | 27 Dec 2022        |
| 2       | Designing with Geo synthetics & Sanitary landfill | Prof. Dr. Jyotikusum Acharya                         | 53                       | 51                                    | 21 Oct 2022          | 27 Dec 2022        |
| 3       | Soil dynamics & Machine foundation Modeling       | Prof. Dr. Harish Chand Giri                          | 62                       | 58                                    | 21 Oct 2022          | 27 Dec 2022        |

The aforementioned courses were successfully completed and the various outcomes have been achieved as follows. These courses will highly essential fir becoming a fully skilled engineer.

### **Course Outcomes of RBM&T;**

CO-1: On successful completion of the course, students will be able to do following:

CO-2: To understand the Vibration of elementary systems.

CO-3: To improve the engineering properties and application in soil dynamics

CO-4: The engineering dynamic properties of soil Field & Laboratory methods:

CO-5: To study the principles of vibration neutralizer

### **Course Outcomes of DGS&SL:**

CO-1: Geo synthetics are the key to solving many of the problems in civil engineering.

CO-2: The material stabilizes land or structures, protects or diverts water, and prevents erosion.

CO-3: It can be made from various materials like rubber, plastic, or various fibers.

CO-4: Geo synthetics are an essential part of sustainable design because it lessens environmental impacts and provides a more livable environment for human beings.

## Course Outcomes of SD&MFM:

CO-1: On successful completion of the course, students will be able to do following:

CO-2: To understand the Vibration of elementary systems.

CO-3: To improve the engineering properties and application in soil dynamics

CO-4: The engineering dynamic properties of soil Field & Laboratory methods:

CO-5: To study the principles of vibration neutralizer.

The department of electrical engineering is pleased to announce that we had provided the following courses in keeping a view of bridging the gap between academics study and industrial requirement for the future technocrats where maximum students were enrolled. The details are as follows

| Sl No | Name of the Add-on Course             | course co-coordinator  | No of students enrolled | No of students successfully completed | Date of commencement | Date of completion |
|-------|---------------------------------------|------------------------|-------------------------|---------------------------------------|----------------------|--------------------|
| 1     | Virtual Instrumentation               | Dr. Lokanath Sarangi   | 30                      | 28                                    | 17-10-2022           | 23-12-2022         |
| 2     | Understanding Plc                     | Dr. Sanjoy Kumar Padhi | 27                      | 25                                    | 17-10-2022           | 23-12-2022         |
| 3     | Error Control Coding And Cryptography | Dr. Lokanath Sarangi   | 15                      | 14                                    | 17-10-2022           | 23-12-2022         |

The aforementioned courses were successfully completed and the various outcomes have been achieved as follows. These courses will be highly essential for becoming a fully skilled engineer

### Course Outcomes of Virtual instrumentation:

- CO1. The student knows how to build computer-based measurement systems.
- CO2. How to interface with hardware instruments using different types of interfaces.
- CO3. To acquire, analyze and display the throughput of any compactible system.
- CO4. Knowledge to connect with third party software and hardware.
- CO5. To give basic knowledge in describing function analysis.
- CO6. Get adequate knowledge VI tool sets.

### Course Outcomes of Understanding PLC:

- CO1. Discuss history of PLC and describe the hardware components of PLC: I/O modules, CPU, memory devices, other support devices, operating modes and PLC programming.

- CO2. Describe field devices Relays, Contactors, Motor Starters, Switches, Sensors, Output Control Devices, Seal-In Circuits, and Latching Relays commonly used with I/O module.
- CO3. Analyze PLC timer and counter ladder logic programs and describe the operation of different program control instructions
- CO4. Discuss the execution of data transfer instructions, data compare instructions and the basic operation of PLC closed-loop control system.
- CO5. Describe the operation of mechanical sequencers, bit and word shift registers processes.
- CO6. Structure of control systems and communication between the processes.

## Course Outcomes of Error control coding and cryptography:

- CO1. Explain the need for error correction in data communication and storage systems.
- CO2. Apply mathematical tools from group and finite field theory in the design of codes.
- CO3. Describe the fundamental limits of error correction.
- CO4. Demonstrate the decoding of block codes including cyclic codes.
- CO5. Explain the operation of a convolutional encoder.
- CO6. Apply the Viterbi algorithm to decode a convolutional code.

The aforementioned courses were successfully completed and the various outcomes have been achieved as follows. These courses will be highly essential for becoming a fully skilled engineer.

### Course Outcomes of Management of Travel Agencies and Tour Operations:

- CO1. To learn the history and evolution of the travel agency and tour operations industries.
- CO2. To develop adequate knowledge and skills applicable to travel industry.
- CO3. To become acquainted with the techniques and strategies required for the successful management of a travel agency and tour operation business.
- CO4. To know about the current trends in tourism and travel trade sector
- CO5. Defines differences between travel and tourism concepts
- CO6. Explains historical development of travel and tourism concepts

The aforementioned courses were successfully completed and the various outcomes have been achieved as follows. These courses will be highly essential for becoming a fully skilled engineer.

### **Course Outcomes of Mechanical Micro Machining:**

CO-01. Mechanism and process of mechanical micro machining.

CO-02. Practical implementations of mechanical micro machining.

CO-03. Metrology for micro machining.

CO-04. Differences between lithographic and mechanical micro machining processes.

CO-05. Production of micro components and products.

CO-06. Importance of comprehension of micro-scale machining to achieve desired dimensions.

## Course Outcome of Advanced Engineering Systems in Motion:

- CO1: The students may achieve to Learn to derive the "derivative formula" and define angular velocity for 3D motion,
- CO2: Determine and solve for Angular Acceleration for a body.
- CO3: Solve for the motion of rigid body undergoing 3D rotational motion.
- CO4: Develop and apply the principles of impulse-momentum and 3D work-energy principles.
- CO5: Describe the relationship of engineering Dynamics as part of the study of the engineering mechanics.
- CO6: To study of forces acting on the bodies and how it affects their motion.

## Course Outcome of STADDPRO:

- CO1. Perform analysis on any structure exposed to static, dynamic, wind, earthquake, thermal, and moving loads.
- CO2. Model generation
- CO3. Model editing tool.
- CO4. Geometry operation
- CO5. Production of micro components and products.
- CO6. Importance of comprehension of micro-scale machining to achieve desired dimensions.

The aforementioned courses were successfully completed and the various outcomes have been achieved as follows. These courses will be highly essential for becoming a fully skilled engineer.

### Course Outcomes of Robotics:

- CO1. Learn the basic terminology used in robotics.
- CO2. Conceptualize 3-D translation & orientation of robot arm kinematics.
- CO3. Understand different robotic actuators and power transmission systems.
- CO4. Classify the types of robotic grippers used in automation industries.
- CO5. Realization of robotic sensoric system and their interfacing with robot controller.
- CO6. Solve robot dynamics problems, generate joint trajectory for path planning.

### Course Outcomes of Telemetry and Data Acquisition System:

- CO1. Understand the fundamental principles and concepts of telemetry and data acquisition systems.

- CO2. Demonstrate knowledge of different types of sensors and transducers used for data acquisition.
- CO3. Gain familiarity with various telemetry techniques and systems, including wireless and wired communication methods.
- CO4. Learn about data acquisition hardware, such as data loggers, signals conditioning units, and data acquisition cards.
- CO5. Develop skills in designing and implementing a telemetry and data acquisition system for specific applications.
- CO6. Interpret function of Data Acquisition System and Data logger.

## Course Outcomes of Indian electricity Standards and Practices:

- CO1. To know various definitions used in Indian electricity rules
- CO2. Students will now know how to get a new connection and enhancement or reduction of load.
- CO3. Will have knowledge on recovery of electricity charges and intervals for billing of electricity charges.
- CO4. Disconnection, reconnection and restoration of supply of electricity.
- CO5. Authority and responsibility associated with power inspectors
- CO4: Detailed description and practical of PCB designing
- CO5: Lab practice and designing concepts.
- CO6: Analyze the fabrication process of printed circuit boards.
